

Professional Summary

Motivated and detail-oriented **Java Full-Stack Developer** with hands-on experience in **Java, Spring Boot, React.js, MySQL, REST APIs, and UI/UX Design**. Skilled in developing responsive web applications, database-driven solutions, and scalable Software systems. Experienced in building full-stack projects, including business management and e-commerce applications. Seeking an entry-level Software Developer position to contribute technical expertise, problem-solving abilities, and continuous learning in a growth-oriented organization.

Technical Skill

- Programming Languages: Java, JavaScript, SQL, C, C++
- Frontend: HTML5, CSS3, JavaScript, React.js, Bootstrap5
- Backend: Java, Spring Boot, REST APIs, MVC Architecture
- Database: MySQL
- UI/UX Tools: Figma, Canva, Adobe Photoshop, Adobe Illustrator
- Developer Tools: Git, GitHub, VS Code, Eclipse, Postman
- Concepts: Object-Oriented Programming (OOP), Data Structures, CRUD Operations, API Integration, SDLC, Debugging, Responsive Design

Education

Bachelor of Science in Computer Science (B.Sc CS)	
Government Arts and Science College, Konam, Nagercoil	2022 – 2025
Higher Secondary Certificate (HSC)	
Government Higher Secondary School, Sundapattivilai ,Nagercoil	2020 – 2022

Certifications

- Diploma in Computer Applications (DCA), CSC, Tirunelveli (Aug 2020 – Feb 2021)
- HP AI Basics Online Certification (2025)
- Full Stack Development & UI/UX Design, Alo Info-Tech, Nagercoil (Jun 2025 – Jan 2026)
- Internship – Intriad Innovations (P) Ltd, Technopark, Trivandrum (Feb 2026 – May 2026)

Project

Daily Management System (DMS) | Full Stack Web Application

- Technologies: Java, Spring Boot, React.js, MySQL, REST APIs, HTML, CSS, JavaScript, GitHub, SMS API
- Developed a web-based billing management system for small service providers such as milk vendors, newspaper distributors, EMI collectors, and shop owners.
 - Designed and implemented Admin and Customer modules with secure authentication and role-based access.

- Built features for customer management, daily transaction entry, monthly bill generation, and billing reports.
- Integrated SMS API to automatically send monthly billing notifications to customers.
- Developed RESTful APIs using Spring Boot and connected them with a React.js frontend and MySQL database.
- Implemented automated bill calculations, reducing manual work and improving billing accuracy.
- Designed a responsive and user-friendly interface to manage records efficiently.

Key Features: Customer Management, Daily Entry Tracking, Monthly Billing, SMS Notifications, Secure Data Storage, Customer Billing Portal.

E-Commerce Web Application | Full Stack Project

Developed a full-stack e-commerce web application that allows users to browse products, manage carts, and place orders through a secure and responsive platform.

Key Responsibilities & Achievements

- Designed and developed a responsive e-commerce application using **Java, Spring Boot, and MySQL**.
- Implemented **user authentication and authorization** with secure login and registration functionality.
- Developed **product management modules** including add, update, delete, and search operations.
- Built **shopping cart and order management systems** to enhance user experience.
- Created **RESTful APIs** for seamless communication between frontend and backend components.
- Integrated **CRUD operations** using **Spring Data JPA and Hibernate** for database management.
- Implemented **role-based access control** for Admin and Customer functionalities.
- Optimized database queries and improved application performance and responsiveness.
- Used **Git and GitHub** for version control and collaborative development.
- Applied **MVC architecture and Object-Oriented Programming principles** to build scalable and maintainable code.

Core Competencies

- Problem Solving and Analytical Thinking
 - Communication and Team Collaboration
 - UI/UX Design and User-Centered Development
 - Time Management and Adaptability
 - Software Development Lifecycle (SDLC)
-
